

SETTHAWUT PIMTHONG

Full-Stack Developer with 13+ years of experience designing, developing, and optimizing scalable web applications. Proficient in both Front-end and Back-end technologies, with a focus on delivering user-centric and efficient solutions. Adept at collaborating with cross-functional teams to meet project goals and deadlines.

EXPERIENCES

FRONTEND DEVELOPER, SCB BANK

2 MAY 2025 - PRESENT

- Developed internal web applications for marketing teams and SCB Group employees, supporting account opening and account management workflows.
- Contributed to front-end development using Next.js, AngularJS, JavaScript, and TypeScript as the main stack.
- Implemented new features, maintained existing modules, monitored application performance, and resolved production issues.

KEY PROJECTS:

- Account Opening System
- Account Management System

LEARNING (UNEMPLOYMENT)

5 JAN 2025 - 1 MAY 2025 (4+ MONTHS)

- Spotify Clone - Advanced Project (MERN Stack): A real-time music streaming application inspired by Spotify.
- Full-Stack Real-Time Chat App (MERN Stack) : A real-time chat application built using the MERN stack. This application supports features such as one-on-one chats, user search functionality, and real-time notifications.
- Full-Stack Real-Time Chat App with Image Uploads (MERN Stack) : Real-time messaging, theme switch, image uploads, authentication, cloud hosting on Render.com
- Product Store CRUD & Deployment (MERN Stack) : a beginner-friendly crash course for learning how to develop full-stack applications with these technologies.
- React Native & Flutter Projects : Built basic applications using React Native and Flutter to strengthen cross-platform mobile development skills.

FULLSTACK DEVELOPER, TOPVALUE CORPORATE LTD.

SEP 2017 - 5 JAN 2025 (8+ YEARS)

- Designed, developed, and maintained software solutions using Next.js, React, Redux, Redux Toolkit, TypeScript, JavaScript, Bootstrap, Tailwind CSS, RESTful APIs, PHP, MySQL, Magento 1, Magento 2 and other tech stacks.
- Managed project timelines and priorities, ensuring alignment with business objectives.
- Developed and maintained e-commerce platforms using Next.js, TypeScript, and Magento.
- Led migration from Magento 1 to Magento 2, improving performance and scalability
- Integrated payment gateways (2C2P, Omise, bank transfer payments)
- Built a real-time admin dashboard with React, Laravel, and Firebase
- Collaborated with outsourced development teams to develop hybrid mobile applications.
- Implemented CI/CD pipelines with GitHub Actions, reducing deployment time by 50%

KEY PROJECTS:

- Developed Topvalue, Topcosme, and House Brand e-commerce websites. (e.g., Topvalue, Aletric, Altec, Fennix)
- Developed microservices for Topvalue and CJ Express team (Easy Shopping Cart)
- Developed a real-time Business Intelligence dashboard for monitoring promotions and generating import/export reports.
- Developed a POS (Point-of-Sale) system for offline store management.
- Developed and integrated payment gateway solutions, including 2C2P and Omise APIs.
- Developed and integrated direct bank payment and installment payment solutions (e.g., TTB, KBANK, SCB, BAY, BBL).
- Developed and integrated modules for Magento 1 and Magento 2 using Docker and Nginx as the web server infrastructure.
